

MagellanPlus Workshop

Investigating the Oceanic Life Cycle of Tectonic Plates with Mission Specific Scientific Drilling

This MagellanPlus workshop will bring together a diverse group of scientists with the aim of initiating and developing Mission Specific Platform projects directed at strategic objective 2 of the new IODP 2050 Science Framework “*The Oceanic Life Cycle of Tectonic Plates*”. The workshop will explore science questions and targets that can be achieved by MSP drilling.

The workshop will be a hybrid online/in-person event

Online pre-meeting: Mid-January 2022

In Person Meeting, Vienna: April 1st-2nd 2022

Registration Deadline: November 2021

STRATEGIC
OBJECTIVE **2**

THE OCEANIC LIFE CYCLE OF TECTONIC PLATES

Organising Committee:

Michelle Harris, University of Plymouth, UK
Thomas Belgrano, University of Southampton, UK
Lydéric France, (Université de Lorraine, CNRS, CRPG, France)
Jurgen Koepke, Leibnitz Univ. Hannover, Germany
Johan Lissenberg, Cardiff University, UK
Alessio Sanfilippo, Università di Pavia, Italy
Esther Schwarzenbach, FU Berlin, Germany
